

## INSTALACION DE LA IMPRESORA DE PRESENTACION (DEMO)

KIP SYSTEM K SOFTWARE – PRESENTATION MODE FOR SALES & SUPPORT PERSONNEL

Presentation Mode for KIP System K Software allows Sales and Support personnel to demonstrate KIP ImagePro, KIP Windows Driver, KIP Accounting and Cost Center applications. Once a stand alone PC is configured with the Demo Printer Tool and KIP System K apps, sales personnel can visit a potential customer and show the key features of KIP Color and B&W printers prior to a full demonstration at a location with a live KIP Printer. Support personnel can also utilize this version to aid customers during phone support and training.

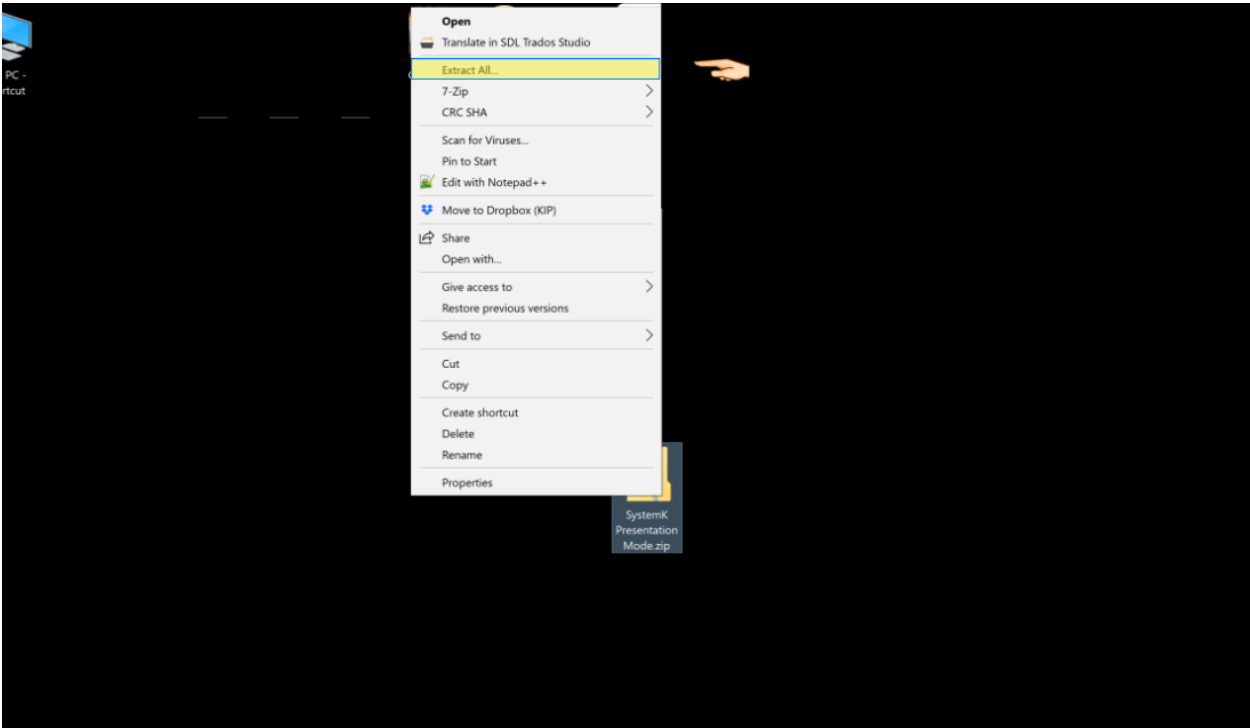

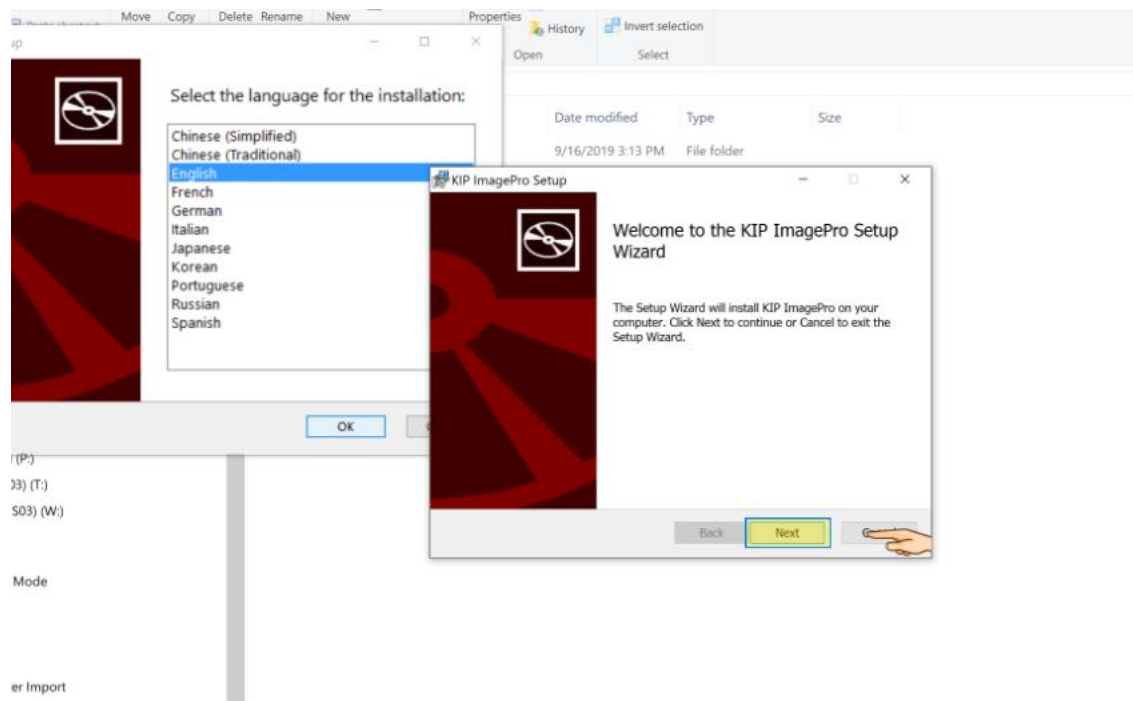

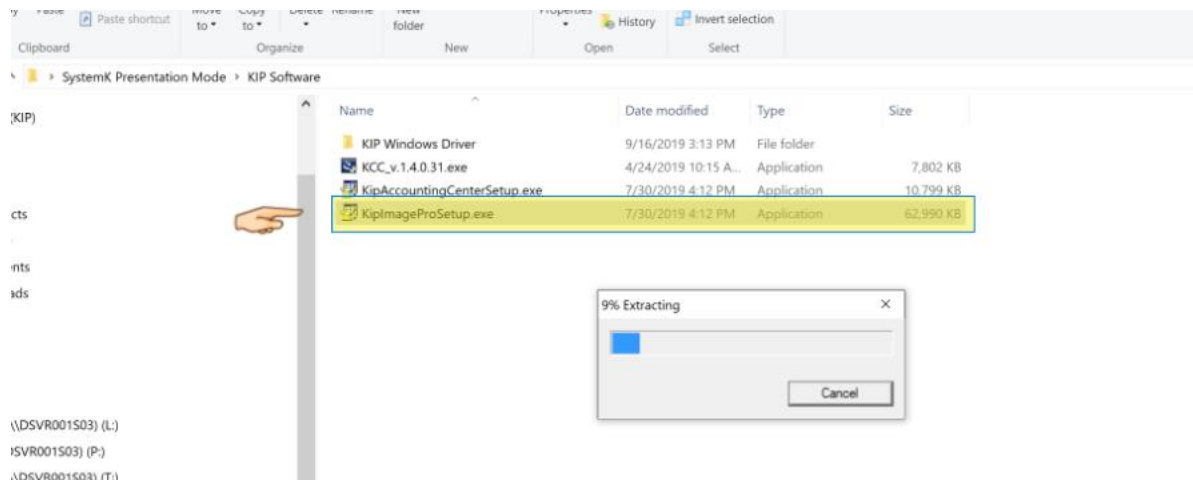

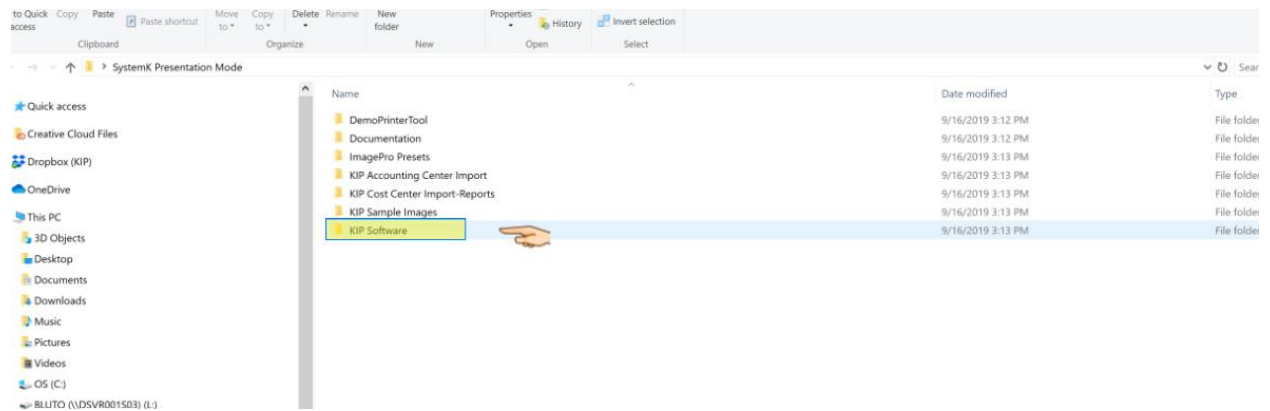

- Requirements:
1. Workstation or Laptop PC with Windows 10
  2. Administrator rights to install software applications
  3. KIP Dealer login credentials
  4. Internet access to download a package of software and instructions
  5. Navigate to the KIP Website and download the package
  6. Unzip the System K Software for Presentation Mode. The following folders are part of that package:
 

Demo Printer Tool | Documentation and Tutorial | ImagePro Presets | KIP Accounting Center Import | KIP Cost Center Import-Reports | KIP Sample Images | KIP Software

KIP HARDWARE TUTORIALS
